For LX Designers: Please save as new file, then delete the following layers:
"LX - House Plot"
"LX - House Dance Plot"
Once complete, please build from "LX - Base Layer", or "Active Show LX", or start a new layer.
Additional pipes available for lighting, upon request.

Red marks demonstrate an obstruction that prevents the placement of a fixture's C-Clamp on a pipe, unless otherwise noted.
Please contact with any questions, or if clarification is required.
